### Asthma Causes

**ASTHMA CAUSES**

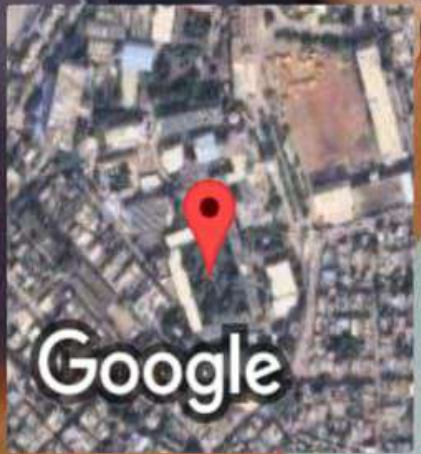

The exact cause of asthma is not known and the causes may vary from person to person. However, asthma can develop when the body's defense system reacts strongly to a new substance in the lungs. Below are some of the causes of childhood asthma.

- Family history
- Allergy conditions
- Allergic factors
- Lifestyle
- Being overweight or obese in children or adults
- Exposure to environmental allergens and irritants including dust, mold, pollen, and smoke
- Exposure to chemicals in occupational areas
